**RESPONSE**

25 Sir:

Applicant responds to the Office Action, mailed 8 September 2004 as follows:

30 The Examiner has indicated that the Terminal Disclaimer is acceptable with regards to Claims 2, 4, 5, 7, 9, 11, 13-31, 34, 35, 37, 39, 41, and 43-61, provided that such claims are presented in independent form including all the limitations of the base claim and the intervening claims. Responsive thereto, Applicant submits herewith a replacement set of claims in which Claim 1 is currently amended to include the limitations of Claim 2. Applicant has also amended Claim 32 to include the limitations of Claim 33 and 34. Accordingly, Claims 1-45  
35 are in allowable condition. Applicant notes that Claim 46 is an independent claim. However, the Examiner raised no objection with regard to Claim 46. Applicant is not certain whether this is an oversight on the part of the Examiner or

whether the Examiner has in fact determined that subject matter of Claim 46 is sufficiently distinct from that of the '362 patent to be allowable pursuant to the terminal disclaimer herein. Applicant assumes that the Examiner intentionally indicated that Claim 46 would be allowable. Accordingly, applicant deems all  
5 Claims dependent therefrom to be allowable as well. Applicant notes that the dependency of Claims 47, 48 and 52 have been incorrectly listed as being from Claim 32. Applicant has corrected the pendency of these claims and these claims are now dependent from Claim 46. Should the Applicant be mistaken and the Examiner have issues with regard to the patentability of Claim 46 in view of  
10 the '362 patent, then Applicant is prepared to address the issue in a prompt fashion with the Examiner.

Respectfully submitted,

15
